

## Sponsorship Levels & Benefits in Partnership with NSP 2

Milwaukee Habitat for Humanity has received a three year Neighborhood Stabilization Program 2 grant, from the U.S. Department of Housing and Urban Development to increase its capacity to build 100 homes on foreclosed properties in Milwaukee. This matching grant is an opportunity to help combat the affordable housing crisis in Milwaukee by helping more low-income families become homeowners. As a result, we need more volunteers and financial support to help us reach this tremendous goal. Double the impact of your donation today by helping us reach our match of \$6.8 million by pledging your support today.

Please review the sponsorship levels and benefits below to see how you can help us reach our goal!
